

Grade 1

Teacher: Gayle Butler/Oak Knoll

Topic: "All That Corn" (Harcourt Reading Theme - 2)

Technology Devices Needed: Software program: Kidspiration

LoTi Level: 1

Directions: Students will use technology to show the sequence of corn. Students will first input small plant, then corn stalk, then store, then home. The students will then be able to click on the "sentence" link and write complete sentences for each phase of the corn cycle. This is also a great way to use ordinal words "First, Second, Third, and Fourth."
