

Kidspiration Rock Project

Project

Directions: Type in assigned rock type.
Tell why it is that type of rock.
Give 2 examples with pictures.
Explain how we use this type of rock.

Kidspiration

Directions:

1. Open Kidspiration
2. Click picture
3. In the center insert the type of rock you are assigned.
4. Click the circle to make it bigger.
5. Click off of the circle to put in other circles – to add other circles you can click the circle in the top left corner of screen
6. Create your other 4 circles.
7. When done click your middle circle and click the LINKS PICTURE at top of screen.
8. Now click one of your other circles and a link will connect the 2 circles.
9. Click your middle circle again and repeat clicking on the other circles so they are all linked to the middle circle.
10. When finished, click a blank space on your screen.
11. Click the circle you want to type in.

12. When done typing, you can INSERT pictures from the INTERNET. HERE'S HOW:

- Click APPLE H at the same time. This Hides Kidspiration for a moment!
- Find your picture on the INTERNET
- Drag it to the DESKTOP of the computer
- Go back to Kidspiration by clicking on it on the DOCK.
- Click the circle you want to insert the picture.
- Click FILE – IMPORT A GRAPHIC
 - In the box that says FROM: - Click the arrow & then DESKTOP
- Click the PICTURE and click OPEN
- Picture will be HUGE! Just find the corner and keep shrinking it.
- Label the bottom of the picture!
