

## **VOLCANO PROJECT**

1. Choose your volcano using the links and famous volcano list provided.
2. Research your volcano's history and describe what it looks like using the internet, books, and encyclopedias.
3. Using your research, write two paragraphs:
  - Paragraph 1: Describing the Volcano
  - Paragraph 2. The History
  - Each paragraph must be at least five sentences.
  - The final copy must be typed or cursive.
4. Sketch the volcano and plan on how to make the model. Refer to the packet of examples and ideas given in class.

5. The model must:

- Show the inside and outside of the volcano.
- Display the name of the volcano and your own
- Have labeled parts:
  - Crater, lava, magma, magma chamber, vent, etc.
- Be sturdy for transport
- Be able to be carried by a student
- Not include glass or perishable items (food/candy etc.)

6. When finished the model write your third paragraph. This paragraph will describe how you made the model of the volcano.

7. Follow all directions listed and each project will count as two test grades. A rubric is attached to show how the project will be graded.
